

Shoulder CONCLAVE 2019

www.jointandbones.com

THEME:
BACK TO FUTURE

JANUARY 18 -19, 2019

JW MARRIOTT, PUNE

Welcome

Dear Colleagues,

We are back after a gap year with a bang, announcing the XIIth Shoulder Conclave on the 18th-19th January, 2019 at the very same venue - JW Marriott, Pune. We have eclectic foreign faculty including Bassam Elhassan from Mayo Hospital, USA, Daniel Moya, Argentina, Jae Chul Yoo from Korea, Samuel Antuña from Spain, Dave Weinstein, USA and our very own Didier Oudet from France. Together they shall comprise the largest congregation of foreign faculty, hand-picked for the theme, "Back to the future". That, with a good mix of therapeutic pragmatism will allow delegates to make informed decision for complex cases. Here the Case scenarios will help shape the most optimum treatment. You will also witness a unique LIVE Shoulder examination session and Bassam Elhassan will walk you through an inimitable cascade of tests to clinically discern a tear between upper subscap and lower subscap or a trapezius substituting an absent supraspinatus. It is important to solve the improbable, disrupt the imprecise and discard the redundant. That distinction is important: In complex shoulder cases, harm can be mitigated, but it cannot be avoided.

This commitment to hold the patient's best interest above all else, to practise with skill, commitment and the tenacity to diagnose and treat in equal measure. With our obstinate reluctance to concede to the menace of destiny, it is time we update ourselves on complex shoulder issues that change the goal posts consistently.

We feel it is mandatory, time and again, to bring such disruptive research to you. Come to another edition of the temple of knowledge, in the winter dates of 18th & Saturday 19th January, 2019.
